**Tuesday 1st March at 7.30pm
With Giorgio Corraetti and Rachel Harrison-Osborne**

The Diagnosis of Poor Performance in Horses

Has your horse lost his sparkle? We are regularly asked to see horses for what is described as poor or loss of performance. Come along and listen to Giorgio and Rachel talk about the diagnostic investigations we use when presented with a case such as this.

**Tuesday 12th April at 7.30pm
With Ben, Kathryn, Giorgio & Rachel**

Not for the Squeamish - Practical Distal Limb Dissection

Back by popular demand - Come and join the equine team for a practical lower limb dissection clinic in our equine unit. If you are a bit squeamish you can just observe or you can get hands on with identifying the complex structures of the lower limb that we commonly identify as causes of lameness.

**Thursday 12th May at 7.30pm
With Giorgio Corraetti and Rachel Harrison-Osborne**

Equine Foot Conditions - When to use Remedial Farriery

Do you know the difference between a heart bar and an egg bar shoe? Please join us for an in-depth look at equine foot conditions such as navicular syndrome, laminitis and some arthritic conditions and discover when remedial farriery can significantly improve your horse's prognosis and aid a speedy return to soundness.
